

THINGS BICYCLAR.

The cycle racing meet of the Carroll Club Cyclers on the state fair grounds Saturday afternoon of next week promises to be a highly successful athletic event. The best amateur riders from throughout the tri-state radius will compete. The entries already received show that the fields will be large in every event on the programme. The prize list is about completed and will be announced in a day or two.

Among the events on the programme are three of the West Virginia state championships, the quarter mile, half mile and mile. It is now almost three years since state championships were contested in West Virginia. That occasion was the first meet of the Wheeling Athletic Wheelmen. Five or six state championships were then contested and the two Mable boys, Max and Henry, divided them between them. Both Mable boys are riding this year and it will be interesting to know whether they will be able to retain the championships. They will have strong opposition. Parkersburg will send her best men and a number of Wheeling riders will ride for the championships.

In the past Wheeling has not had a track racer who was able to go fifty miles from home and hold his own against the best amateur talent. Even here at home the local racers have almost invariably crossed the tape yards in the rear of some outsider. Steubenville has her Helm and Quimby, Deaver Falls her Augenbaugh, East Liverpool her Hale, but Wheeling has never had a racer of great merit. Those who admire cycle racing are hoping that the coming meet of the "Three C's" will develop a Wheeling racer who can do something above the mediocre on the track. Who will he be?

The popularity of race meets this year has been an emphatic surprise to many people. It was generally thought that when Class B was abolished that the masses would lose all interest in the racing question. Just the reverse has been the case. The professional races this year have been well and honestly contested, and the ever watchful A. W. officials will keep it that way. There is no reason why cycle racing should not have just as much of a public following as base ball and horse racing. Nearly every state will have as racing circuit in '97.

The hurry over price cutting and over-production seems to have died away. The \$40 and \$50 wheels listed at \$5 to \$100, are simply finding their level. Really high grade wheels are not shrinking in either quality or price.

To-day's games—Fort Wayne at Wheeling, Toledo at Washington, Jackson at Youngstown, Saginaw at New Castle.

Yesterday's winner—Youngstown.

On account of the rain yesterday all of the inter-state games, excepting the one at Youngstown, were postponed. Last evening it was given out that Fort Wayne and Wheeling would play two games this afternoon, but later it was decided to play but one game. Powell or Carrick will be in the box for the Champions and "Red" Garvey is slated to pitch for the Nallers. The sick men on the Fort Wayne team are gradually rounding to and they will no doubt make an interesting series with the Wheelings.

Recently some complaint was made because Mr. J. W. Gunnels, president of the Toledo club, was so remiss in paying his \$200 guarantee. Those who knew Mr. Gunnels thought at the time that something must have been wrong or he would have been among the first to settle. It now develops that the Toledo man had a reason for his delay in putting up his cash. It seems that it had been agreed that President Power's bond was to be deposited with Mr. Gunnels, who is the vice president of the league. When the bond was not filed promptly and Gunnels refused to pay the guarantee until the bond was forthcoming. When he got the bond the cash was put up.

That the rain was general over a large part of the country was shown by the postponing of all games in the National league excepting at Chicago. In the inter-state league only one game was played, that at Youngstown.

"Jack" Crogan says he has definitely decided not to accept the offer of an umpire's berth in the inter-state league made him by President Power.

Anyone who carefully sizes up the eight teams of the inter-state league must come to the conclusion that there are six that are just as good as Wheeling, and two or three that are better fixed in the box. It is not a sure thing that Wheeling will at once jump into the first division in the second season race. Wheeling outclassed every team but one at the opening of the first season, but the same cannot be said now.

Youngstown Wins Again.

Special Dispatch to the Intelligencer. YOUNGSTOWN, July 20.—Spade pitched good ball, only letting down in the eighth after he had won his game. Derrick was easy for Schiele's men.

CRIMINAL COURT.

A letter to Judge Hugus that is rather flimsy and will not clear Forger Garlow—The Palitz Case Not Concluded.

The case against W. C. Garlow, charged with forgery will come up in the criminal court to-morrow and it promises to be one of the most interesting of the term. Dryden & Robinson will defend the prisoner and Prosecuting Attorney Howard will conduct the prosecution. In connection with this case the defendants' attorneys and Judge Hugus have received letters from an unknown person signing the name of George McKlesick, in which the writer claims to be the guilty man and states that he was in Woodsfield, Ohio, on the day of Garlow's arrest, and that it was he who was on the train and got off because the cashier of the bank was on board. McKlesick says he and Garlow are "double cousins," using the same expression that Garlow did when he was examined by Chief Bennett after his arrest. He says they look as much alike as twins and that he used Garlow as "a sort of a vault" to keep his checks and papers. The writer also requests that the photographs of these letters be compared to the ones on the checks and ascertain if it is the same. A funny thing about the letters is that they are dated Pittsburgh, July 19, and the postmark shows that they were mailed in Wheeling, July 18.

The trial of Albert Palitz, the seven-year-old boy who is charged with stealing a horse belonging to Mrs. A. D. Gardner, took up the day in the criminal court yesterday and attracted quite a large crowd of spectators. The jury before which he was tried and in whose hands his fate rests, is composed of the following: W. S. Coleman, Hermann Claus, J. H. Clark, J. E. Webster, George C. Criss, Samuel Moore, J. W. Coleman, Benjamin Gooding, Henry Kern, W. J. Velshanes, J. O. Schenck and Charles H. Bryson. Colonel Robert White and Mr. M. F. Dryden fought the indictment for the defense and Prosecuting Attorney Howard represented the state. The defense instituted a plea that their client was not responsible for anything he did and introduced testimony to that effect. Dr. Manley was among the witnesses for the defense and gave his opinion on the shape of the boy's head. The testimony was all in before 6 p. m. and the night session was devoted to the argument. Colonel White's plea for the boy was eloquent and touching. The case was given to the jury at 9:45 p. m. and up to 10:45 they had failed to agree on a verdict, consequently they were called in and sent to the hotel until this morning at 9 o'clock.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore an important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

"BOHEMIAN GIRL" Is Produced Again at the Casino—"Pirates of Penzance" To-night.

The attendance at the Wheeling park casino last evening on the occasion of the second performance of "Bohemian Girl" was again somewhat curtailed by the very disagreeable weather and the weather man, in fact, seems determined to do all he can to mar the opera season, but he predicts fair weather to-day, which indicates that he may be mollified even yet. The performance last evening was characterized by the same excellence that marked Friday nights, and was cordially received by the audience. The principal parts were in most capable hands as usual and the chorus was strong and effective. The bill for the next two nights will be "Pirates of Penzance," one of Gilbert & Sullivan's most attractive works, and it will be put on in all its entirety. On Thursday evening "Bohemian Girl" will be sung for the last time and "Mikado," the clever story of love and adventure in Japan, will be on the boards on Friday and Saturday, with Saturday matinee. It is high time that the government's rain trains are exhausted and with good weather the remainder of the week the crowds will undoubtedly be large. Messrs. Levi and Rheinhold are giving Wheeling people the best summer opera they ever had.

IN BUSY BENWOOD.

What People Are Doing and Saying in the Industrial Town.

James Hutchison, of McMechen street, met with a very serious accident yesterday, while at his work in the Riverside plate mill. He was repairing a cooling furnace and had one of the large lids propped up on hooks. The hooks broke, letting the lid fall on his right hand, maiming it. The second finger was amputated and it is thought by the attending physician that his hand will have to be amputated, as every bone is broken and his wrist badly mashed.

SEEMS sometimes as if the world were all wrong. Seems as if all the things we like disagree with us, and all the things we don't like, agree with us. Dyspepsia lurks in most of the good things we eat, and indigestion follows the gratification of appetite. Of course, it isn't Nature's fault. Nature does the best she can, and if a man will only help her a little bit at the right time, he may eat what he likes and as much as he likes. Dr. Pierce's Pleasant Pellets are for people who are troubled with indigestion. Particularly for those in whom it manifests itself in the form of constipation. The "Pellets" are quick and easy in their action. They are in perfect harmony with Nature. They effect a permanent cure. You need take them regularly only a little while. After that, use them occasionally when you need them when you have eaten something that disagrees with you. They are not violent in their effect, do not derange the system at all, and may be taken just as freely as you would take water or any other necessity of life. Once used they are always in favor. You can get the "Pellets" at any drug store. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you do not get well.
